

Registration number – Appearance – clear liquid

Describe the activity or work process.
(Inc. how long/ how often this is carried out and quantity substance used)

STERI-7 XTRA Concentrate is formulated to be diluted and dispensed for high volume cleaning solutions. STERI-7 XTRA Concentrate is low foaming which makes it ideal in cleaning and scrubbing machines. This also represents the most economical way to purchase as it can be diluted up to 1:50. High Level = 1:10 General use = 1:50 Fogging = 1:10 - 1:50. When used in STERI-7 BioMister for fogging, please refer to BioMist Technical Information Sheet.

Location of process being carried out?

The STERI-7 XTRA Concentrate can be used wherever the highest standards of disinfection is required and are suitable for use in healthcare and food processing environments and all other workplaces where there is a risk of cross contamination. The product has been tested against and is effective against a number of commonly occurring bacteria, yeast and viruses that are known to be highly transmissible and can result in infections and illnesses.
