State the Risks to Health from Identified Hazards

EC Classification: H226 Flammable liquid and vapour. H400 Very toxic to aquatic life. H410 Very toxic to aquatic life with long lasting effects. EUH401 To avoid risks to human health and the environment, comply with the instructions for use. EUH208 Contains alpha-hexylcinnamaldehyde, benzylsalicylate. May produce an allergic reaction. Cutaneous sensations may occur, such as burning or stinging on the face and mucosae. However, these sensations cause no lesions and are of a transitory nature (max. 24 hours).

Control Measures:

Always read label / MSDS before use and comply with details.
To be used by trained operative (professional) only PA1 / PA6
Keep in original, labelled container.
Remain in control of substance at all times. Storage to be restricted to certified store, out of storage use to be confined to regulated vehicle.

Pesticide resistance in greenhouse whitefly and some aphids is widespread. Where resistance to pyrethroids is present, Provanto Ultimate Fruit & Vegetable Bug Killer Concentrate is unlikely to give control. Where necessary use an alternative product.
 Avoid spraying delicate open blooms. The best time to spray is early morning or late evening. Do not spray in bright sunlight or when plants are dry at the roots
 Children and Pets need not be excluded from the treated area **until dry**.
 Keep out of reach of children.
 Records to be kept on usage and location in pest control master file.
 Operator to wear suitable PPE when handling and applying As detailed below. Records of PPE maintenance to be held centrally.
 Waste product to be retained and disposed of by Pest Control operator as per EA guidelines

Safety Phrases:

P240 Ground/bond container and receiving equipment.
 P280 Wear protective gloves/protective clothing/eye protection.
 P501 Dispose of contents/container to a licensed hazardous-waste disposal contractor or collection site except for empty clean containers which can be disposed of as non-hazardous waste.

Is health surveillance or monitoring required? Yes No

Personal Protective Equipment (state type and standard)

 <input type="checkbox"/>	Dust mask	 <input type="checkbox"/>	Visor	To be worn if spraying Above head height
 <input checked="" type="checkbox"/>	Respirator	 <input checked="" type="checkbox"/>	Goggles	Safety goggles to be worn when applying
 <input checked="" type="checkbox"/>	Gloves	PVC or rubber gloves	 <input checked="" type="checkbox"/>	Overalls
 <input checked="" type="checkbox"/>	Footwear	Steel toe cap boots to be worn as per company dress code.	 <input type="checkbox"/>	Other

First Aid Measures

Inhalation: Move to fresh air. Keep patient warm and at rest. Call a physician or poison control centre immediately.
Skin: Immediately wash with plenty of soap and water for at least 15 minutes. Warm water may increase the subjective severity of the irritation/paraesthesia. This is not a sign of systemic poisoning. In case of skin irritation, application of oils or lotions containing vitamin E may be considered. If symptoms persist, call a physician.
Eyes: Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Warm water may increase the subjective severity of the irritation/paraesthesia. This is not a sign of systemic poisoning. Apply soothing eye drops, if needed anaesthetic eye drops. Get medical attention if irritation develops and persists.
Ingestion: DO NOT induce vomiting unless directed to do so by a physician or poison control centre. Rinse out mouth and give water in small sips to drink. Keep patient warm and at rest.

Storage / Spillage

Storage: Store in original container and out of the reach of children, preferably in a locked storage area. Keep containers tightly closed in a dry, cool and well-ventilated place. Keep away from direct sunlight. Protect from freezing.
Spillage – Soak up with inert absorbent material (e.g., sand, silica gel, acid binder, universal binder, sawdust). Keep in suitable, closed containers for disposal. Clean floors and contaminated objects with plenty of water. Do not allow to get into surface water, drains and ground water. If spillage enters drains leading to sewage works inform local water company immediately. If spillage enters rivers or watercourses, inform the Environment Agency (emergency telephone number 0800 807060).
