

Pest **CLEAN** PLUS

For the control of pathogens and micro-organisms particularly those associated with birds.
To be used by individuals who are likely to come into contact with bird nests, roosts,
droppings, feathers and other avian materials.

CONTAINS CHLORHEXIDINE & QAC'S (12% W/V)

Effective against:

P. aeruginosa
E. coli
S. Aureus
E. hirae

5 Litres

DIRECTIONS FOR USE:

PestClean Plus, once diluted, can be sprayed or wiped onto surfaces. It is a multi-surface biocide and can also be used as a disinfectant in stables, kennels, animal transport, and in areas of rodent activity or other pest activity. It is recommended to complete a test on sensitive surfaces before a full application.

For general areas of bird activity (roosts, nests, landing areas), use a 1:60 dilution ratio. For example, add 10ml of PestClean Plus to 600ml of water.

For areas of heavy guano soiling (carcasses, debris) use a 1:15 dilution ratio. For example, add 40ml of PestClean Plus to 600ml of water.

It is recommended to treat surfaces before removing guano, saturating debris will help to prevent hazardous particles as well as disinfecting. Any carcasses, nests or collected debris should be treated before placing into disposal bags. All surfaces that have been cleared of guano and avian materials should have a final application of PestClean Plus at 1:50 dilution.

DANGER

Contains: ALKYL DIMETHYL BENZYL AMMONIUM CHLORIDE; N-(3-AMINOPROPYL)-N-DODECYLPROPANE-1,3, DIAMINE; CHLORHEXIDINE DIGLUCONATE; PERFUME (CONTAINING CITRAL, CITRONELLOL, GERANIOL, LIMONENE, LINALOOL).

SAFETY PRECAUTIONS:

(PESTFIX) PESTCLEAN PLUS (LEMON)
HC1799

Contains perfume (containing citral, citronellol, geraniol, limonene, linalool). May produce an allergic reaction. Causes severe skin burns and eye damage. Very toxic to aquatic life.
