

# Green Solutions Catalogue

January 2026

Welcome to the Nurture Group's Green Solutions catalogue.

Inside, you'll find an overview of all our products, workshops and solutions on offer that integrate environmental and social responsibility into your business.

### **Delivery to all parts of the UK**

- Insect hotels, hedgehog hotels and bat boxes are made from untreated pallet timbers i.e. not treated with methyl bromide (MB)
- Pallets marked with the IPPC trademark with HT (heat treated) are used to make all these items
- The insect hotels are filled with chipped pallets, bark, logs drilled to attract insects and are covered with a galvanised mesh
- The bird boxes are made with pallet timber, plywood from solid pallets, fencing off-cuts and topped off with a galvanised angle to seal the roof. These can be painted or left as they are to colour naturally. Our steel strips are UK sourced from a local supplier and not from a recycled source.

**All prices in this catalogue are excluding VAT, installation and delivery costs.**

# BIODIVERSITY SOLUTIONS

## Habitat & Signage Range

Our beautifully crafted habitats are a one-of-a-kind opportunity to provide a central talking point or unique sign. We can tailor our range with your logo, company branding or images. Our only limit is your imagination!

**Insect Hotel - small**  
30cm x 30cm x 14cm  
Price: £115.20

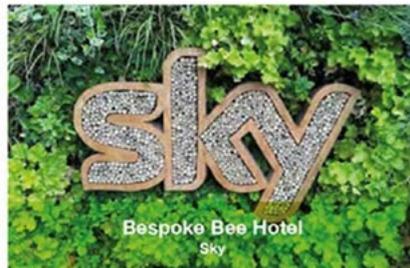

**Insect Hotel - medium**  
50cm x 50cm x 14cm  
Price: £165.60

**Insect Hotel - large**  
70cm x 70cm x 14cm  
Price: £252.00

Custom bespoke insect hotels are also available - see gallery below.  
Price: POA

**When installing our insect hotel range there are two main methods:**

**Wall Mounted-** Securing the hotel directly to a wall or existing suitable structure, using screws and brackets sourced separately to suit the surface.

**Ground Mounted –** Attach 2 fence posts to either side of the habitat and fix using screws. Install the post into the ground by at least 50cm, backfilling the hole to secure. Where possible use heavily packed soil and ensure the base of the habitat doesn't touch the ground.

Habitats should always be facing south to south-east. Avoid north facing sites and don't locate your habitat in the shade to achieve maximum benefit.

**Open Nest Box**  
20cm x 20cm x 14cm  
Price: £25.00

**Closed Nest Box**  
20cm x 20cm x 14cm  
Price: £25.00

**Woodstone Bird Boxes**  
Size: 28mm or 32mm  
Price: £24.99

**Bat Box**  
Price:  
£26.00 (small)  
£45.00 (large)

**Custom Wooden Planters**  
Price: POA

**Bespoke Signage**  
Price: POA

**Bespoke Wooden Signage**  
custom size  
Price: POA

If you would like further information please email our ESG & Green Solutions Support who can provide a quote, lead time and talk you through the process to acquire our bespoke range.

**Flatpack Birdbox**  
Each section slot together (no nails or tools needed).  
Price: £20.75

*All prices in this catalogue are excluding VAT, installation and delivery costs.*

## Habitat Recycled Range

### Recycled Insect Hotel

Large: 53cm x 64cm approx  
**Price: £150.00**

### Recycled Insect Hotel

Extra Large: 123cm x 64cm approx.  
**Price: £295.00**

### Butterfly Box

23cm x 18cm x 9cm  
**Price: £30.00**

### Hedgehog House

**Price: £82.50**

### Robin/Black Bird Box

34cm x 20cm x 15cm  
**Price: £32.50**

### Sparrow Box

55cm x 23cm x 15cm  
**Price: £72.00**

### Scandinavian Bird Box with Shingled Roof

20cm x 30cm x 12.5cm  
**Price: £25.00**

### Scandinavian Bird Box with One Piece Roof

22.5cm x 30cm x 12.5cm  
**Price: £25.00**

*All prices in this catalogue are excluding VAT, installation and delivery costs.*

## Habitat Recycled Range

**Swift Box**  
37cm x 21cm x 13cm  
**Price: £64.00**

**Bat Box**  
**Price: £32.50**

### Bird Boxes

We offer two main types of boxes; open and closed boxes. Our bird boxes are made using FSC sourced materials and allow for annual inspection and cleaning. Our closed 32mm box also includes an anti-woodpecker and squirrel metal plate.

### Which bird box do I need?

Our 32mm closed boxes are ideal for great tits, tree sparrows, redstarts, pied flycatcher and house sparrows. Our open boxes support robins, wrens, blackbirds, pied wagtails.

### Bird Boxes: Tips for installation

- Install between 1.5m and 2m off the ground in a quiet place that is difficult for cats and other nest predators to access
- Consider the weather. Ideally the box should have some protection from the wind and rain
- Ensure the entrance hole faces east or north-east to avoid direct sunlight.
- Place open boxes in hedges or against walls where vegetation masks or hides the entrance
- Always use an aluminium nail when hanging in a tree

## Bee Post, Sand Planters and Habitat Signage

Below you'll find a range of products that offer ways and means to support biodiversity improvements. They are designed to create nesting habitats for bees and other wildlife, as well as creating opportunities for people to learn all about biodiversity.

### Bee Post

Single bee posts offer a nesting habitat for a wide variety of solitary bees and wasps (hymenoptera) and other insects. The drilled holes and natural cracks aid their reproductive cycles.

*1.8m tall once installed  
100mm x 120mm square*

**Price: £790.00**

### Sand Planter

Sand planters create a habitat for ground-nesting species of solitary bees and wasps (hymenoptera) and other invertebrates. They can be filled with regular brick-laying sand, ballast, hoggin and waste aggregates etc. sold separately.

*h: 72cm x w: 70cm*

**Price: £1,100.00**  
*per planter*

### Habitat Sign: Single Sided

A multi-purpose product which includes signage as well as a habitat for cavity-nesting bees, wasps and others. The roof space doubles up as a bird nesting space too. Single sided as shown above.

*1.5m x 1m x 150mm approx.*

**Price: £1,800.00**

### Habitat Sign: Double Sided

A multi-purpose product which includes signage as well as a habitat for cavity-nesting bees, wasps and others. The roof space doubles up as a bird nesting space too.

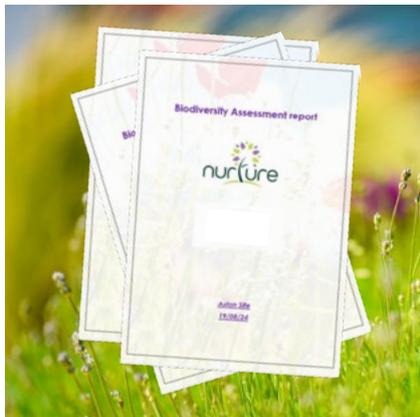

*1.5m x 1m x 150mm approx.*

**Price: £2,100.00**

**All prices in this catalogue are excluding VAT, installation and delivery costs.**

# SURVEYS & ACTION PLANS

## **Biodiversity Assessment Report (BAR)**

Our BARs are conducted by our Nurture in-house subject matter experts (SMEs) and provide a purposeful and easy to follow guide on how to improve the overall standard of ecology onsite. They are generally used for non-static sites where there is a desire to improve biodiversity.

*A site inspection itself takes between 1 and 4 hours depending on site size. Available March - October.*

**Price: starting from: £250.00**

## **Biodiversity Action Plan**

This comprehensive and detailed report involves a series of desktop surveys, followed by a minimum of 4 site surveys by one of our SMEs. They provide a long term, holistic plan of measuring, recording and analysing sustainable and biodiverse practices. The plan provides a structured and targeted approach to deliver consistent improvements to last for at least 5 years.

**Price: starting from: £1,500.00**

# Biodiversity Mapping

## Biodiversity Net Gain (BNG) Mapping

Whilst BNG Legislation is focused on development, it can be beneficial to understand the metric baseline scoring for your sites. We can carry out accurate satellite mapping and BNG calculations using the very latest high-definition imagery. A BNG survey is tailored to your site, assessing existing types of habitats & distinctiveness. Following the survey, we can define how future improvements could improve the BNG metric. These surveys can also be back dated to demonstrate how the site has changed in terms of BNG.

**Price: starting from: £POA**

## Geographic Information System (GIS) Mapping

GIS mapping is invaluable for anyone who owns or manages large external spaces. Satellite imagery is used to define the type of landscape / grounds, with use of What3Words to locate and plot biodiversity habitats and other assets. We work with you to map plots, boundaries and green asset data, so that maintenance requirements can be accurately assessed and quantified.

**Price: starting from: £POA**

# ENGAGEMENT & EVENTS

We offer a wide variety of events for our clients through our Green Solutions offering, which engage and encourage biodiversity.

## National Recognised Days

We can accommodate key nationally recognised days with workshops and other events e.g. tree planting & building insect hotels to recognise Earth Day.

**Price: starting from £25.00\* per head**

## Seed to Plate

A workshop to teach people how to plant seeds for vegetable & salad crops. These can be taken home to plant on into growbags, pots or the garden and enjoy the produce.

*Hosted: March / April*

**Price: starting from £25.00\* per head**

## Herb Planting

A step-by-step workshop to teach people how to make their very own herb basket which they take home. All materials, plants & PPE are supplied.

*Hosted between April & August.*

**Price: starting from £25.00\* per head**

### **Hanging Basket Workshops (Flowering & Vegetable/ Salad Crops)**

A step-by-step workshop to teach people how to make their very own hanging basket which they take home. All materials, plants & PPE are supplied.

*Hosted between May & Sept.*

**Price: starting from £25.00\* per head**

### **House Plant Doctor Workshops / Drop in Workshops**

A workshop to allow people to bring in or meet our team onsite to ask questions about their house plants. We can provide advice on how and when to report. It can be a standalone event or a great add on.

*Hosted any time of the year.*

**Price: starting from £35.00\* per head**

### **Pumpkin Supply / Carving – Halloween**

Hosted as a pumpkin carving event or simply supply so employees can take home a free pumpkin. We supply carving tools, templates and PPE. Each session usually takes around 30 minutes. Please allow time to clear up and reset (15 minutes).

*Hosted October.*

**Price: starting from £25.00\* per head**

### **Flower Arranging**

A premium event. Arrangements can be a hand tied bouquet or table arrangement.

*Groups between 10 & 20 max per session, any time of the year.*

**Price: starting from £60.00\* per head**

### **Christmas Wreath Decorating**

A workshop which includes a pre-made spruce wreath for participants to decorate. All materials & PPE are supplied.

Each session usually lasts around 30 and 40 minutes. Groups between 10 & 30 max per session.

*Hosted November and December. Popular event, please book early to avoid dissapointment!*

**Price: starting from £35.00\* per head**

### **Allotments & Gardening Clubs**

A great engagement opportunity for colleagues and community groups, with potential for regular gardening club sessions.

*Hosted any time of year.*

**Price: starting from £25.00\* per head**

\*This is dependent on the type of event, location, number of people and materials supplied. A final price will provided be upon confirmation of the event.

### Nature / Biodiversity Walks & Talks

These can be held at different times of the year to capture the seasonal flora & fauna. Duration is usually between 30 and 45 minutes.

Typically held over lunchtime to include as many people as possible.

**Price: starting from £150.00\*\***

### Meet the Bees\*\*\*

A unique opportunity to see and learn about honeybees, with our experienced beekeepers hosting these sessions. Participants are shown the different types of bee – queen, drones & workers, as well as see and learn how honey makes its journey from hive to jar. Groups of up to 20 people can be accommodated and lasts around 45 minutes.

*Hosted between August & October.*

**Price: POA**

### Honey Extraction\*\*\*

**Price: POA**

### Kokodama Workshop

Kokedama, meaning "moss ball" in Japanese, is a traditional garden art that involves encasing a plant's roots in soil wrapped with moss.

*Groups between min 15 - 25 max per session. Hosted any time of year.*

**Price: starting from £35.00 per head\***

### Branded Seed Packets

Perfect for giveaways and events, we can personalise seed packets with your company branding and message.

Minimum purchase of 200 packets.

**Price: from £2.50 per packet**

**All prices in this catalogue are excluding VAT.**

\*\*This is dependent on the location and duration. A final price will be provided upon confirmation of the event.  
 \*\*\*These events are only offered for those clients with hives

# NATURAL SOLUTIONS

## Living & Green Walls

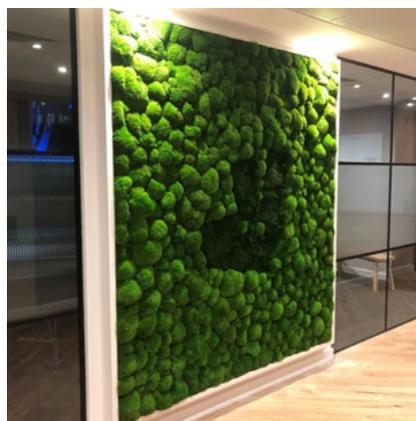

We provide a spectacular array of interior office planting to distinguish any indoor space. From office plants and living walls to elevate and improve general wellbeing; beautiful floral displays to brighten up your reception areas, to fully decorated Christmas trees.

### Plant Box Green Wall System

Having developed an advanced green wall system, we can offer an effective way of adding to your green credentials and your employee' wellbeing with restful and calming environments.

**Price: POA**

### Moss Wall

Moss walls can provide health and wellbeing benefits for your colleagues, as well as enhancing the aesthetic appeal of your space and air quality in the process.

**Price: POA**

### Internal Living Wall

Living walls can dramatically improve air humidity and air quality inside your building, providing great sound absorption and insulation.

**Price: POA**

### **External Living Wall**

Anonymous and uninspiring entrances can be replaced with a sea of colour or bold statement planting, complementing any city square or cobbled lane.

**Price: POA**

### **Interior Planting**

Interior planting helps people to feel more relaxed and focused, leading to an increase in creativity, ideas generation and problem-solving capabilities.

**Price: POA**
